Int. J. Pres. Ves. & Piping **38** (1989) 419–421

CONTENTS OF VOLUME 38

Number 1

Stress Intensity Factor Analyses of Interacting Elliptical Cracks using Line–Spring Boundary Element Method 1
NORIYUKI MIYAZAKI, HIDEAKI KANEKO & TSUYOSHI MUNAKATA (Japan)

The Incorporation of Earthquake Loadings Within a Crack Stability Analysis for Piping Systems 15
E. SMITH (UK)

Effect of Periodic Bands of Overloads on Crack Closure 27
RAGHUVIR KUMAR & S. B. L. GARG (India)

A New Method of Multisegment Integration for the Nonlinear Analysis of Shells of Revolution 39
MD. WAHHAJ UDDIN (Bangladesh)

Acoustic Emission Inspection and Defect Assessment for Metal Vessels . . 57
SHIFENG LIU, YAOGUANG WAN, GONGTIAN SHEN & QINGRU DUAN (People's Republic of China)

An Alternative Approach to the Battelle 'Screening Criterion' for Pipes with Through-wall Cracks 69
F. P. CHAMPOMIER & P. HILSENKOPF (France)

Number 2

Control of Weld Quality in Large Welded Populations 81
P. J. ALBERRY, R. R. L. BRUNNSTROM, J. A. LAMBERT (UK) & R. A. WILLGOSS (Australia)

Effect of a Radial Thermal Gradient on the Ovalization of a Pipe Section . . 107
CÉCILE AILLAUD, MARIE NOEL BERTON & DENYS GAMBY (France)

Plastic Collapse of Single Mitred Pipe Bends 129
R. KITCHING, G. H. RAHIMI & H. S. SO (UK)

Int. J. Pres. Ves. & Piping (**38**) (1989)—© 1989 Elsevier Science Publishers Ltd, England.
Printed in Great Britain

Determination of Residual Stress Distributions in Autofrettaged Tubing: A Discussion 147
BOAZ AVITZUR (USA)

Technical Note
On the Evaluation of the Mechanical Properties and the Ultimate Internal Pressure of a Thin-Walled Closed-End Cylinder 159
W. C. FOK & F. W. TRAVIS (Singapore)

Number 3

Stress Intensity Factor for a Crack in a Tube by the Boundary Collocation Method 167
Y. H. WANG (People's Republic of China)

Finite Element Failure Analysis of Composite Pressure Vessels Wound by Wide Plies 177
G. LASCHET & J.-P. JEUSETTE (Belgium)

A Classification System for Pressure Vessel Shell Failures 189
L. P. HARROP (UK)

Inelastic Analysis for the Ductile Growth of a Surface Crack 201
NING JIE, GAO QING & SUN XUNFANG (People's Republic of China)

The 'Energy Concept' in Critical Groups of Load Calculation 211
VALERIU V. JINESCU (Romania)

FE-calculated Stresses in a Multi-pass Butt-welded Pipe—A Simplified Approach 227
B. L. JOSEFSON & C. T. KARLSSON (Sweden)

Announcements 245

Number 4

Moment Loads on Branch-pipe Junctions: The Effect of Run-pipe Fixing on Elastic Stress Levels and its Implications on Plastic Limit Loads 249
D. G. MOFFAT, J. MISTRY (UK) & J. A. M. MWENIFUMBO (Malawi)

Pipework Deflection Measurement Using Photogrammetry 261
R. BREEN, R. CLAYTON & A. B. WILSON (UK)

Studies on the Temperature Dependence of Charpy V-Notch Initiation Energies for a Pipeline Steel and its Welds. 275
B. Y. CHEN & Y. W. SHI (People's Republic of China)

Effect of Yield Stress and Stress Ratio on Fatigue Crack Closure in 6063-T6 Aluminium Alloy. 293
RAGHUVIR KUMAR & S. B. L. GARG (India)

A Semi-membrane Ring Element for the Linear Elastic Stress Analysis of Pipe Elbows under In-plane Bending 309
F. J. M. Q. DE MELO & P. M. S. T. DE CASTRO (Portugal)

Research Note

Experimental Studies on Anisotropic Titanium Pressure Vessel Materials . . 321
LI GANGLING, ZENG XIAOYING, YAN CHONG, LIU DONGXING, ZENG CHENGZI, SHI YUFENG & LIU RUNZE (People's Republic of China)

Announcements 329

Number 5

Leakage through an Irregular Crack in a Pressurised Component . . . 333
E. SMITH (UK)

Anchorages under Tensile Loading—A Nonlinear Numerical Analysis . . 341
F. STANGENBERG & D. JANKOWSKI (FRG)

The Line-Spring Model for Embedded Crack and Slightly Emergent Surface Crack 355
YIN CHU LU & GUANG SONG YANG (People's Republic of China)

The Elastic Analysis of a Dent on Pressurised Pipe 369
ONG LIN SENG, CHAN YIU WING & GERALD SEET (Singapore)

Fatigue Crack Initiation from Defects at Weld Toes in Steel 385
J. L. OTEGUI, H. W. KERR, D. J. BURNS & U. H. MOHAUPT (Canada)
